***PARTICIPATION IS POSSIBLE
 PLANNING AND CARRYING OUT BARRIER-FREE EVENTS
 FOR HARD OF HEARING***

**21st International Conference for Pastoral Care among
 Hard of Hearing 2024 in Oslo, 23rd–26th August**

The Evangelical Pastoral Care among Hard of Hearing in Germany (ESiD), The Nordic Catholic Church in Norway (DNKK), Stöde Lutheran Parish, Sweden, The Pastoral Care among Hard of Hearing of the Polish Evangelical Lutheran Church and Amitié des personnes handicapées, France invite you, in cooperation with IVSS Churchear, to a thrilling conference with interesting lecturers and exciting encounters. Our conference theme this time is: **“Participation is possible”**

After 30 years we shall again meet in Norway, this time in the country’s capital. A novelty this time is it, that the conference is arranged as a part of an Erasmus+ Project with the same theme and that it is partly funded by EU. We are therefore able to invite you to a price-favourable conference..

Not the least, we will come together with all our accumulated experience from being fellow wanderers together with hearing impaired members of our churches. Some of us are hard of hearing ourselves; others are hearing well. All of us have something to learn from each other. We therefore have, as always, emphasised on having time for encounters and exchange of experience. Whether you are professionally or voluntarily engaged within pastoral care among hard of hearing or you simply are curious about it you are most welcome to attend our conference. Together we can make the world better, because participation is actually possible.

Ingrid Stillström, President

How to get there?

See travel advices at www.churchear.org

Hearing Consideration at the IVSS-Churchear conferences

All speakers will use microphones (in the conference hall and all other sites)

In the conference hall: Induction loop, loudspeakers and captioning in English and German.

Outside the conference hall: All conference attendants are offered to borrow an FM receiver, enabling you everywhere to receive the sound from the microphones through telecoil og head phones. There will even be mobile captioning in English (See picture further down).

Group conversation: Smaller groups may borrow a microphone transmitting the spoken sound to FM receivers mentioned above. This may be combined with induction loops as well as head phones, and on some occations there may be English captioning as well (e.g. at dinner and workshops)

What workshops to attend at this conference?

See detailed information at www.churchear.org

10.15 Coffee / tea

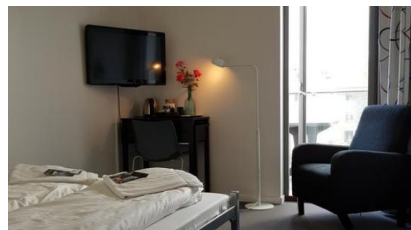

10.30 Debate on the guidelines

12.15 Group picture

Closing the conference

13.00 Lunch
